

Composition:

Neotear® Eye Drops: Each ml contains Carboxymethylcellulose Sodium USP 5 mg & Glycerin BP 9 mg.

Preservative: Sodium Perborate.

Pharmacology:

The combination of Carboxymethylcellulose Sodium and Glycerin relieves the symptoms of dry eye in two ways. Firstly it provides lubricating and hydrating protective shield on the ocular surface of the eye and then it works below the tear film to provide protection to the cornea.

Indications:
Neotear® Eye Drops is indicated for the temporary relief of burning, irritation, and discomfort due to dryness of the eye or exposure to wind or sun.

Dosage & administration:

Instill 1 drop in the affected eyes as needed.

Contraindications:

It is contraindicated in patients with known hypersensitivity to any ingredient of this formulation.

Vision may be temporarily blurred when this product is first used. Also, minor burning/stinging/irritation may temporarily occur.

Precautions:

Consult doctor if irritation, eye pain or visual changes worsen or persist beyond 72 hours.

Use in pregnancy:

There are no adequate and well-controlled studies in pregnant women. Carboxymethylcellulose Sodium and Glycerin should be used in pregnancy only if the potential benefit justifies the potential risk to the fetus.

Use in lactation:

Carboxymethylcellulose Sodium or Glycerin has not been measured in human milk. Caution should be exercised when the combination of Carboxymethylcellulose Sodium and Glycerin is administered to a nursing mother.

Use in children:

It can be used in children.

- Store below 30°C temperature in a dry place, protect from light. Do not use longer than 30 days after first opening.
- Do not freeze.
- Keep out of the reach of children.

Packing: Neotear® Eye Drops: Each LDPE dropper bottle contains 10 ml Sterile Eye Drops.
